AUTION .-- We beg leave to caution purchasers of our choice OLD MONONGAHELA WHISKIES against the deception and petty fraud which is practiced by certain parties in this city and in Baltimore, who have appropriated to themselves exact copies of the Star Brands, long used and designed by us to distinguish our Old Whiskeys. We can assure our friends and customers, that the unrivalled quality, everywhere acknowledged, of our choice OLD WHISKIES, cannot be equalled by these ingenious invaders of our rights.

Our new establishment, Gibsonton Mills, on

the Monongahela River, gives us unequalled facilities for making Whiskey of the choicest kind, from malted and kiln-dried grain. Purchasers of our Old Whiskies will please to notice, the words GIBSONTON MILLS and JOHN GIB-

son, Sons & Co., are inserted in the new Brands which we now adopt; and we deem it a duty to our customers and ourselves, to give notice, that we will prosecute and expose any person or persons who may hereafter copy or use our Brands.

PRINCE ALBERT'S MODEL FLEMISH FARM. The model buildings on this farm, situated in the neighborhood of Windsor Great Park, belonging to his Royal Highness the Prince Consort, are just completed; and although all the most improved principles connected with a farm homestead have been in troduced here without reference to expense, the strictest care and economy have been observed in carrying out the works. The site selected is a little to the north of the old buildings, which being on rising ground, necessitated the removal of a great quantity of earth, which turned out to be excellent clay, and consequently advantage was taken of this circumstance, the clay being turned into bricks which proved to be well adapted for building purposes; a large quantity of ballast was also produced, which was used in the formation of roads, yards &c. The buildings embrace stables, cow houses, bull houses and yards, calf pens, loose boxes, feeding boxes, with covered yards for fattening cattle, piggeries, spacious sheds for carts and implements, yards and sheds for sheltering cattle, a cottage for the carters and other farm servants, boiler, engine and mill rooms, with

The cow house and covered yard, which are spanned by an elegant roof, form one large compartment of about 100 by 60 feet, divided by a feeding passage in the centre, 12 feet wide, and communicates at one end with the stable yard, and at the other with the pig-

The roofs are uniform in design, being a combination of wood and iron, to appearance very slight, but of great strength. The cover to the roofs is the double Roman tile, manufactured by Messrs, Coulthurst, Symmons & Co., Bridgewater; the eaves tile is Beadon's Patent made by the same firm. These tiles are an important covering to buildings of this description, as they are warm in winter and cool in summer; the eaves tile not only carrying off the water, but an ornamental finish to the walls. Glass tile made of the same pattern of the clay tile, for lighting the various buildings, can readily be fixed to the roofs as or-

linarily constructed. The whole liquid manure from the open cattle yard is collected and conveyed by iron pipes into a large tank, and from thence it is o arranged that the contents may be discharged over the fields adjoining. All the doorways, piers &c., against which the cattle may be likely to come in contact, are built with

In a recent lecture of Gen. Shields, on Mexico, delivered before the Catholic Institute of Baltimore, the speaker paid a just tribute to the "go aheaditiveness" of the American soldiers. "From Palo Alto," said he, "which was the first battle, to the city of Mexico, we were victori us; no marre us what circums ances, the America always victorious. I can't account for P .-

people we ever saw.' I cannot account for it, unless it was that the Americans never counted the odds, but went at ft and took it for granted that they would be victorious any how. The Romans have said, and they were great fighters, that men who think they can do a thing generally do it. Audacity does wonders, and French audacity fought all Europe, and came near conquering it too but the audacity of the American beats them all -his motto under all circumstances is "Go
